

How the Sondag System and Winsor Learning Help Accomplish Reading Goals

The Sondag System product line (Let's Play Learn, Sondag System 1, and Sondag System 2) enables teachers to use multisensory, structured phonics quickly and successfully for every level of intervention PreK-12. The design is streamlined and uncomplicated while the directions are explicit and easily understood. Let's Play Learn is a core program focused on prevention for preschool through kindergarten, an intervention program for struggling students in lower elementary grades as well as English language learners. The Sondag System 1 is a core curriculum for Pre K ? 2 or an intervention program for struggling readers of any age. The Sondag System 2 is a continuation of Sondag System 1 and guides the instruction for intermediate reading and intervention. Implementing training and materials of any Sondag System level (Let's Play Learn, Sondag System 1, and/or Sondag System 2) will permit any teacher to correctly identify and effectively remediate students at every level of intervention Pre K ? 12. Winsor Learning, Inc. provides ongoing and sustained professional development to enable teachers, principals and other administrators to understand the science and psychology of learning oral and written language, thus enabling the integration of all existing school materials, old, new or transitional curricula.

The Orton-Gillingham experts at Winsor Learning are curriculum designers, professional trainers, university instructors, special and regular educational classroom teachers, clinicians and IEP compliance consultants.
