

Let's Play Learn Editions

Early Childhood and Intervention Program That Guides Pre-Reading, Early Reading Skills and Early Numeracy Skills

Let's Play Learn is for students in PreK-K and an intervention program for students who are needing additional pre-reading skills. The lessons are structured, systematic instruction that build a logical and natural progression to deliver appropriate instruction at every level. Strands in each lesson include a variety of strategies, activities, and materials designed to teach phonological awareness, rapid naming, alphabet, shapes, vocabulary, prewriting, printing, picture and listening comprehension, and letter names and sounds. Let's Play Learn aligns with the National Pre-K Standards and can be utilized in all tiers of Response to Intervention (RtI) models. Let's Play Learn is available in two editions to fit the needs of all educators in different settings: (one) Let's Play Learn-Basic, and (two) Let's Play Learn-Premium.

The following displays the difference between the two editions...
