The Sonday System 1® Workbooks are designed to be used outside of the regular Sonday System 1 instruction time for independent practice, for homework or for seatwork. The Workbooks are not meant

to replace instructional sessions where interaction between the teacher and student(s) are vital, but to provide materials to reinforce the skills being taught in the instructional setting. The activities and exercises provide more opportunities for the student to cement learning into long-term memory, because they are multisensory, they reinforce learning and build confidence while providing variety and fun.
