

Request a Modeling Demo

An opportunity to observe scientifically based instructional practices in action.

Winsor Learning offers schools/districts the opportunity to preview the skills their staff will acquire after completing a Winsor Learning training module. An expert will visit your classroom to demonstrate the delivery of the Winsor Learning multisensory language instruction method with **YOUR** students **while the school/district staff observes**. Typically, observers are administrators, board members, teachers, paraprofessionals, and parents.

The Winsor Learning expert spends approximately 35 minutes delivering a Sounding System lesson to the students. The demo is followed by Q&A with observers and the Winsor Learning expert.

Demos are free of charge to schools/districts with adequate representation and the ability to assemble a small group of students for modeling.

Please submit your request or call 800-321-7585 to speak to a representative. You can also [download a printable version of this request form](#). This form is in PDF format, and you will need Adobe Acrobat Reader to view it.
